

# Halogen reflector

## 6423FO 150W GZ6.35 15V 1CT

Philips' halogen reflector lamps offer the ideal no-fuss solution for a wide variety of medical, projection and scientific illumination systems. Their proven reliability makes them ideal for retrofit installations. The burners are precisely aligned for optimal light performance. Dichroic reflectors ensure heat dissipation towards the back of the optical system, which helps the optical system remain within temperature limits. A special blue-filter version blocking out unwanted light above 700 nm is available for dental curing applications. In addition, you get all the proven advantages of halogen technology such as a CRI of 100 – the same as natural sunlight for the best possible color rendering. Halogen lamps also create a comfortable warm white light, and they maintain their high lumen output with almost no lumen reduction throughout their lifetime.

## Product data

#### General Characteristics

6423FO

Projection
50 hr

#### • Light Technical Characteristics

Color Rendering	100 Ra8
Index	
Color Temperature	3350 K
Technical	

#### • Electrical Characteristics

Watts	150 W
Voltage	15 V
Dimmable	Yes

#### • Luminaire Design Requirements

Pinch Temperature	400 (max) C
Bulb Temperature	900 (max) C
Working Distance	32 mm
WD	

#### • Product Dimensions

Overall Length C42 (max) mmDiameter D50 (max) mmFilament Dimensions-(WxH) [mm]-
