- ★ We use an innovative, specially designed semi-transparent arc-shape cover, with excellent reflector to optimize beam distribution.
- ★ The semi-transparent arc shape cover creates soft, pleasant light, with low glare.
- ★ The cover and reflector design provides high luminescence with an even beam pattern.

- ★ Unique heat sink design
- ★ Seamless aluminum and thermo-plastic design to reduce the operating temperature of the LED chips.
- ★ Designed to allow air to flow freely, guarantees a longer life.
